

Carbon Reduction Plan

Company name: Sensée Operations Limited

Publication date: January 17th 2025

Commitment to achieving Net Zero

Sensée Operations Ltd is committed to achieving Net Zero emissions by **2050**.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024	
Additional Details relating to the Baseline Emissions calculations.	
<i>Our baseline year starts in 2024. This is the first year since the sale of one of our buildings, and since the rebrand to Sensée Operations Limited.</i>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	62.53
Scope 2	185.17
Scope 3 (Included Sources)	330.14 (Water waste & supply, Waste, Homeworkers, Business Travel, Hotel Stays)
Total Emissions	577.84

Current Emissions Reporting

Reporting Year: 2025 (Jan – April)

EMISSIONS	TOTAL (tCO₂e)
Scope 1	25.14
Scope 2	33.27
Scope 3 (Included Sources)	97.41 (Water waste & supply, business travel, hotel stays, municipal waste)
Total Emissions	155.82

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **392.93** tCO₂e by **2030**. This is a reduction of **68%**

We will begin charting our progress against this objective as we calculate our first post-baseline figure in December 2025.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the **2024** baseline. The carbon emission reduction achieved by these schemes equate to **0** tCO₂e, a **0%**ge reduction against the **2024** baseline and the measures will be in effect when performing the contract

We are at the beginning of our journey, having finalised our baseline figures in December of 2024. As such, no environmental management measures or projects have yet been completed.

Future carbon reduction initiatives

In the future we hope to implement further measures such as:

- Development of an Environmental Management system aligned to ISO14001.
- Registration with SBTi
- Race to Zero Pledge
- Carbon Disclosure Project (CDP)

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

Steve Mosser, Group CEO
